

Super Hero Cuffs

Some of our favorite super heroes wear cuffs on their wrists! Make your own cuffs using empty paper towel rolls cut into the size of your choice. Cut a slit all the way down one side for ease of putting them on their wrists. Now, decorate them any way you choose!

You may use paint, markers, stickers or whatever else you have on hand. On the following page, there are some possibilities to cut out and glue on if you choose to do so.
