

A photograph of four children sitting around a table in an art center, engaged in drawing and coloring. The background shows shelves with art supplies like colored cups and markers. The text is overlaid on the image.

What's going on in the

# ART CENTER?

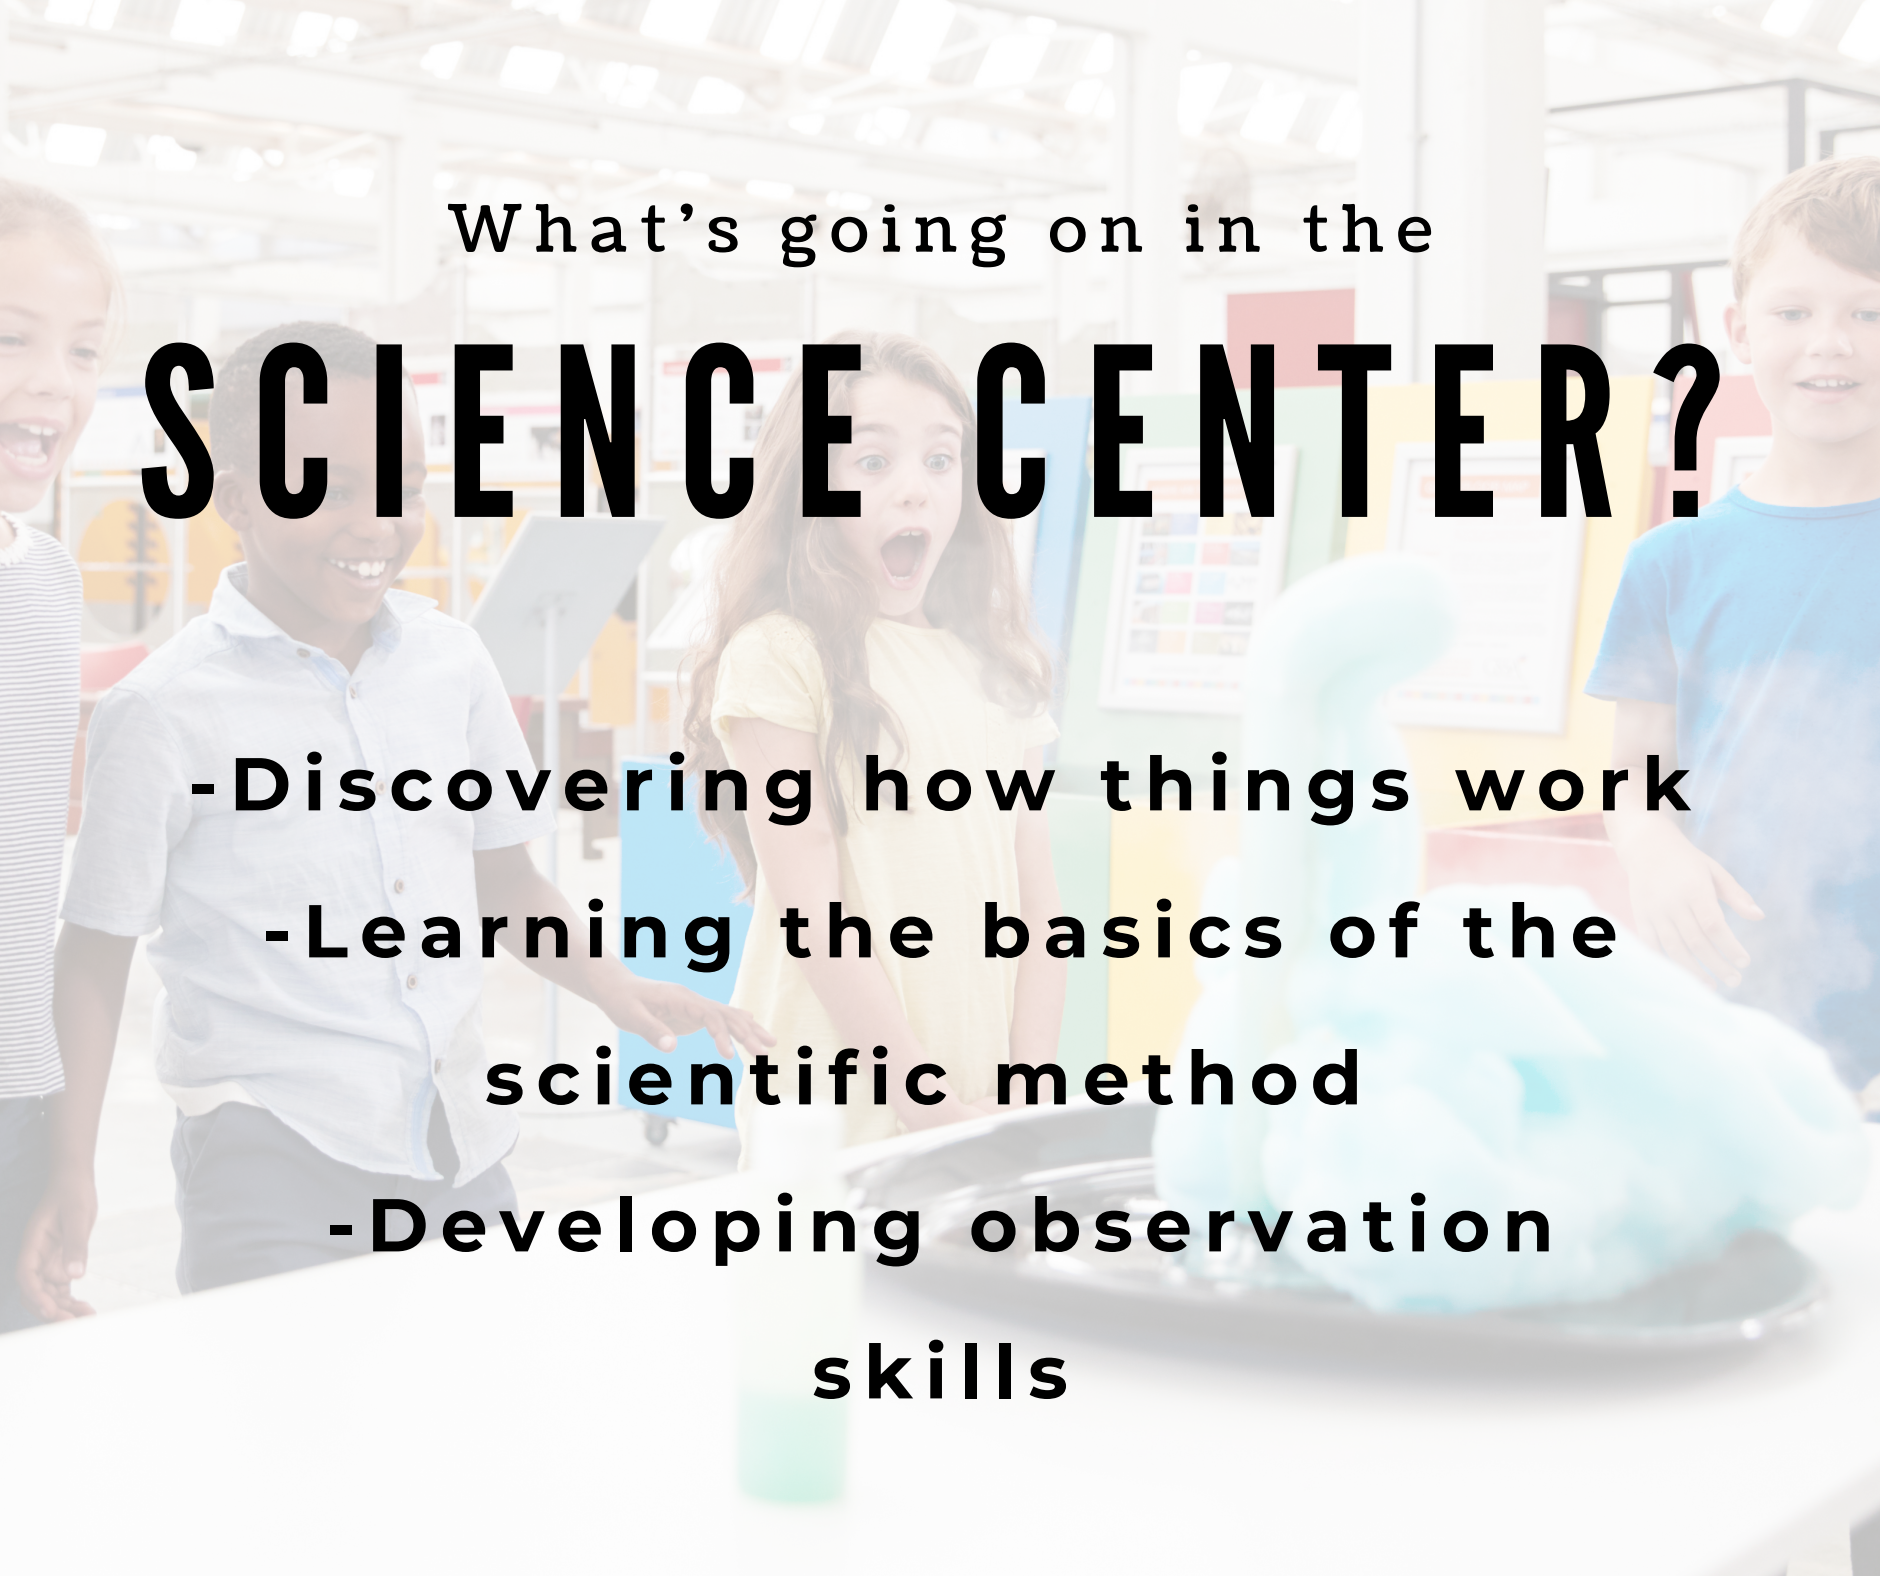

- boosting hand-eye coordination
- improving fine motor skills
- increasing creativity
- expanding communication skills

A group of five children are playing in a large cardboard box that has been transformed into a car. The children are visible through the cutouts of the box, which has a steering wheel and wheels drawn on it. The background shows a white shelf with books and a colorful board with circular patterns.

What's going on in the

# HOME CENTER?

- Learning how to play well with others
- Working on speech and grammar
- Communicating wants, needs and feelings
- Exercising fine and gross motor skills
- Using imaginations

A group of diverse children are in a science center. In the foreground, a girl with long brown hair and a yellow shirt has a surprised expression. To her left, a boy in a light blue shirt is smiling. To her right, another boy in a blue t-shirt is looking towards the camera. In the background, there are colorful educational displays and a large blue dinosaur-shaped object. The scene is brightly lit with natural light from skylights.

What's going on in the

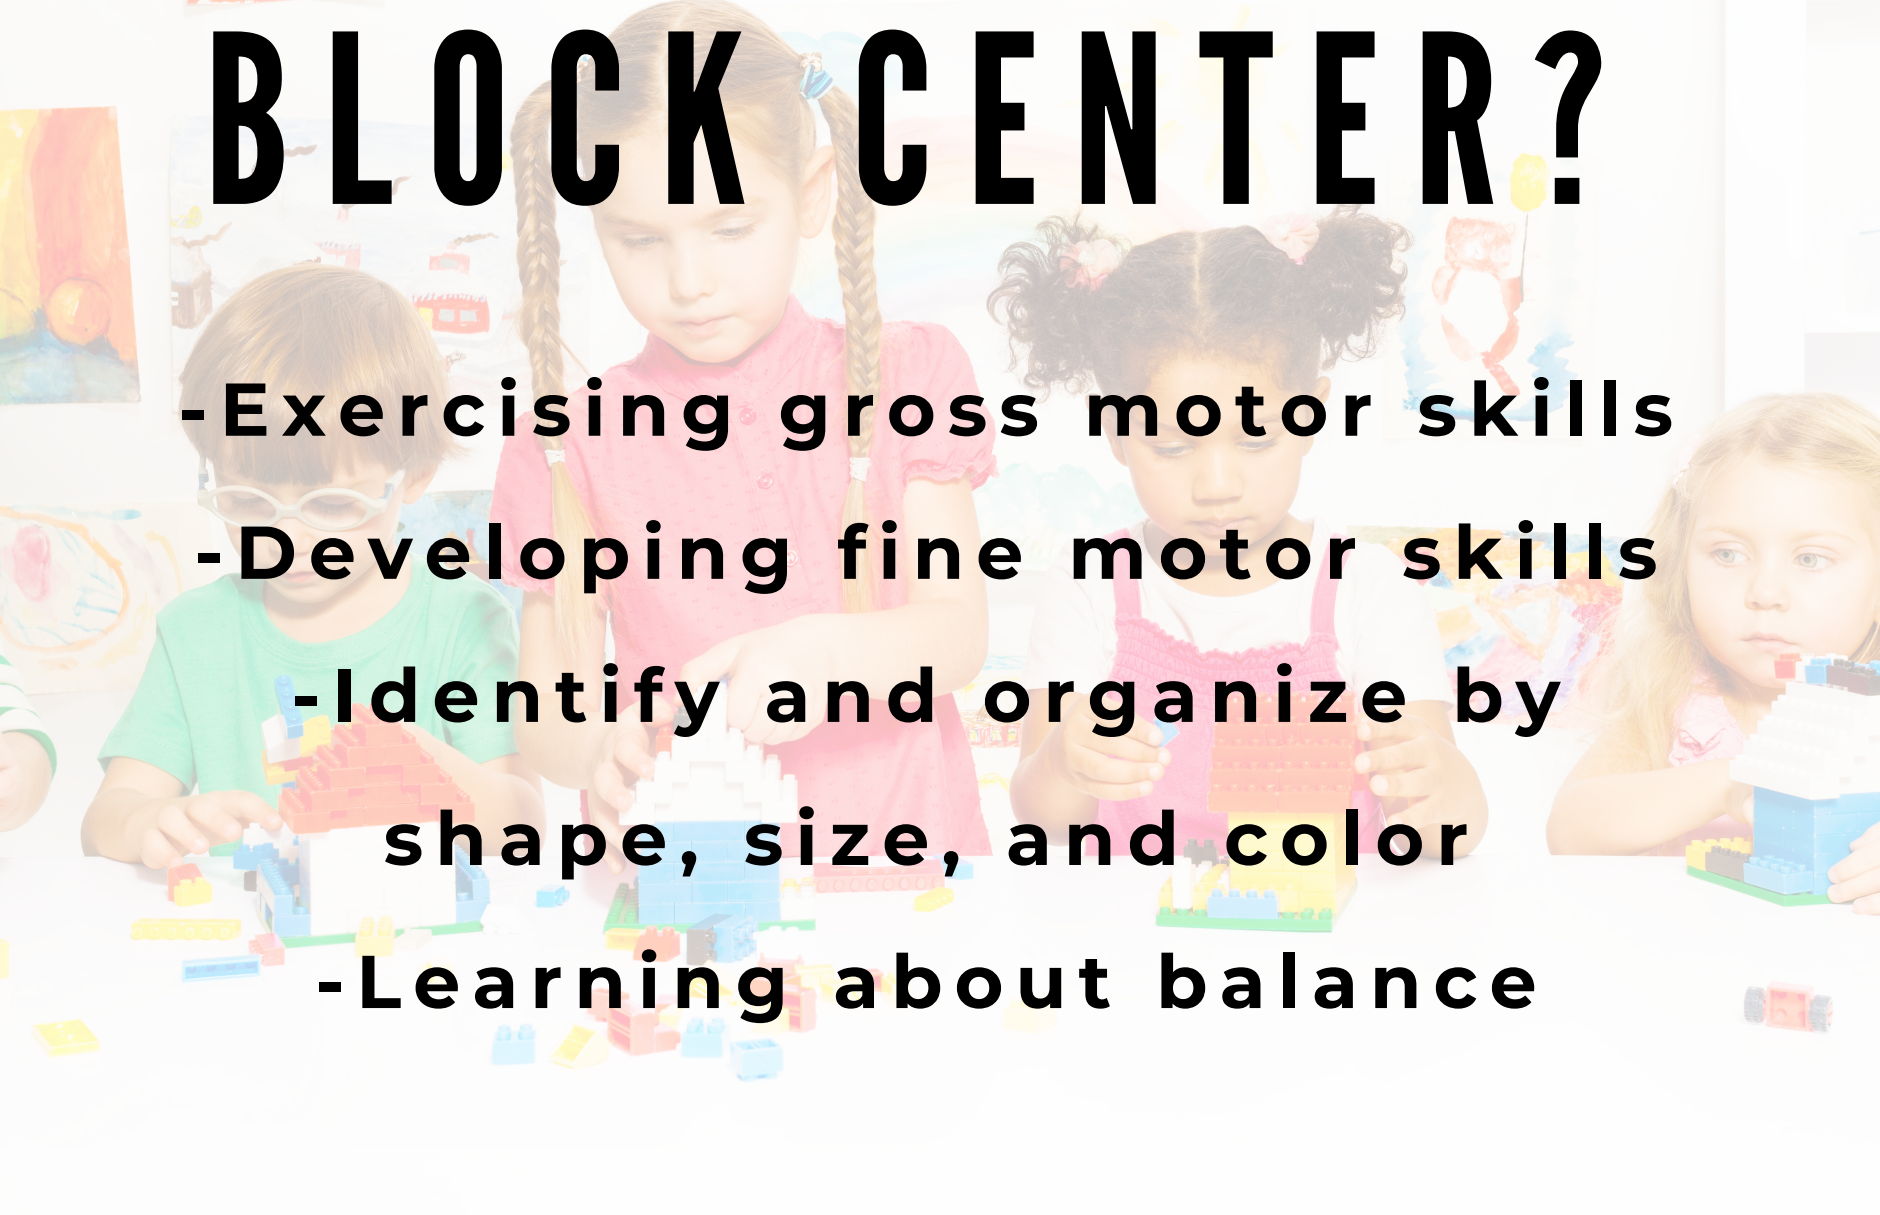

# SCIENCE CENTER?

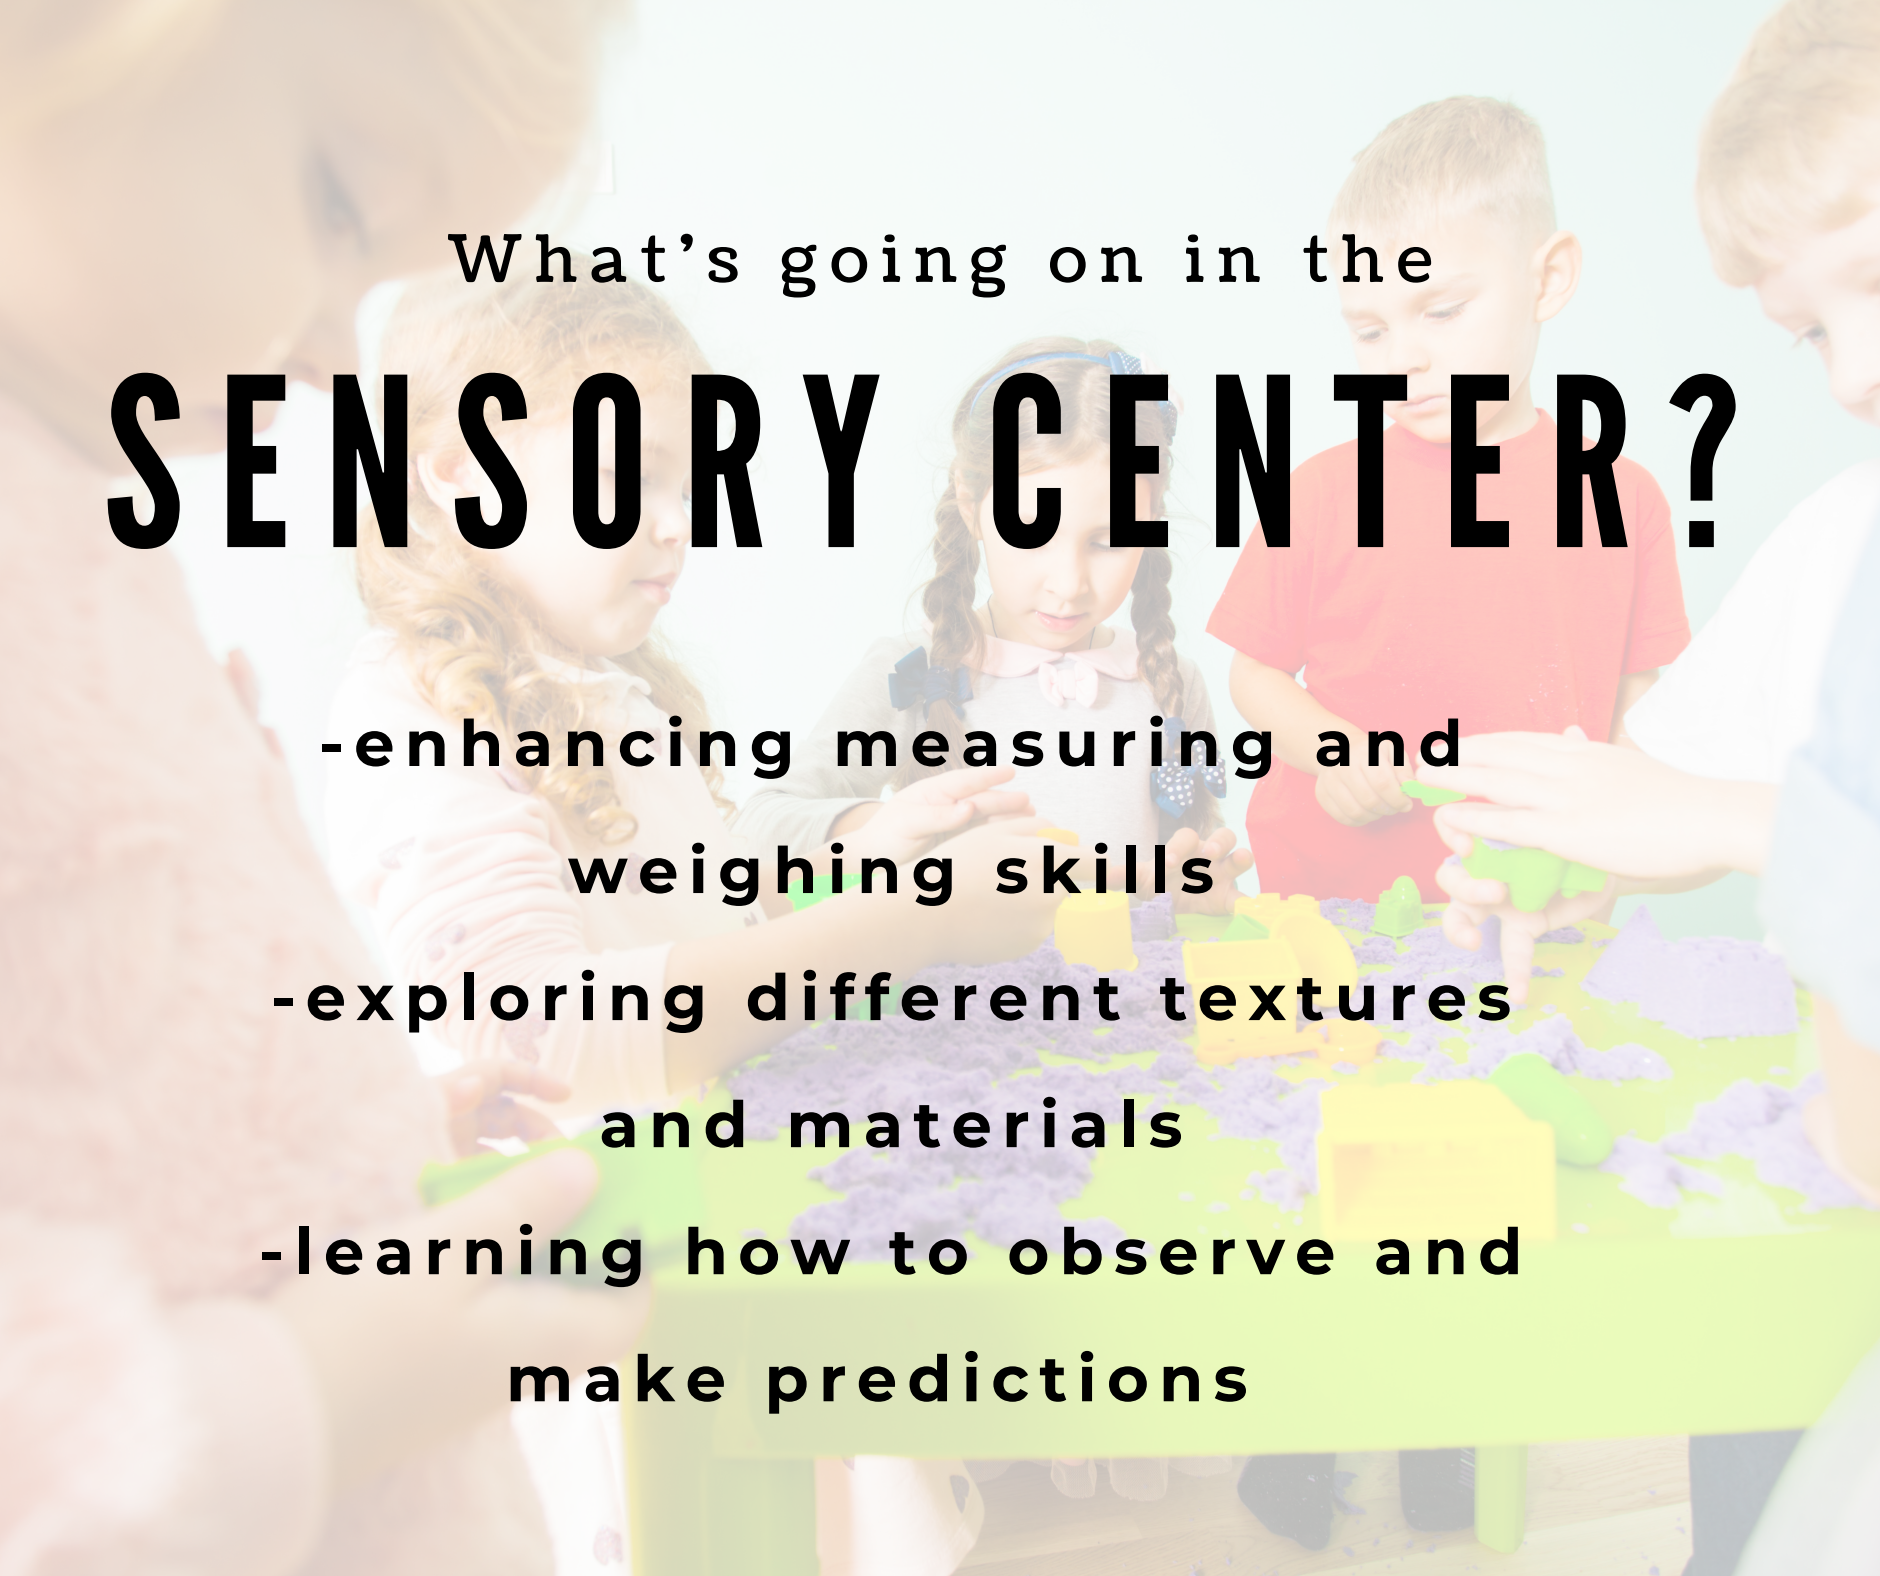

- **Discovering how things work**
- **Learning the basics of the scientific method**
- **Developing observation skills**

What's going on in the

# **BLOCK CENTER?**

- 
- Exercising gross motor skills**
  - Developing fine motor skills**
  - Identify and organize by shape, size, and color**
  - Learning about balance**

A photograph of four children sitting around a table, engaged in a sensory activity. They are playing with purple and yellow beads, green blocks, and other materials. The children are looking intently at the materials. The background is slightly blurred, showing more of the children and the table.

What's going on in the

# **SENSORY CENTER?**

- enhancing measuring and weighing skills**
- exploring different textures and materials**
- learning how to observe and make predictions**
