

# Where in the World

Using alternating colors of paper, cut out 8 circles with diameters from 1 to 8 inches.

Label the bottom edge of each circle as follows:

**My Planet (8")** This could be a paper plate.

**My Continent (7")**

**My Country (6")**

**My State (5")**

**My City (4")**

**My Street (3")**

**My Home (2")**

**Me (1")**

**Guide the children to draw (or cut out from magazines) pictures for each circle and put them on top of each other by size to give them a visual of how these words all fit together.**
